DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Intent To Prepare an Environmental Impact Statement for the Disposal and Reuse of Naval Surface Warfare Center, Crane Division, Naval Ordnance Station Louisville, KY

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969 as implemented in the Council on Environmental Quality regulations (40 CFR parts 1500-1508), the Department of Navy announces its intent to prepare an Environmental Impact Statement (EIS) for the Disposal and Reuse of Naval Ordnance Station Louisville (NOSL).

In accordance with the 1995 Base Closure and Realignment Act, the Navy intends to close NOSL and dispose of the property. NOSL is a depot-level maintenance facility that provides maintenance, overhaul, and repair of small to large caliber Naval guns, and on-board Navy weapons systems. It is the Navy's only remaining full-service gun and gun weapons system facility. It is located in the city limits of Louisville. The property occupies 142 acres of land surrounded by industrial and single family as well as multi-family residential areas. It includes 92 structures containing more than 1.63 million square feet of production, administrative, supply, and miscellaneous support facilities.

The objective of the EIS is to describe the existing conditions of NOSL and to evaluate the environmental impacts associated with the various reuse alternatives, including: (1) Privatizing the gun and gun weapons systems facilities of NOSL, so that the mission remains the same but the ownership of the equipment and facilities is transferred to the private sector, with the remainder of the base being disposed in accordance with the land use described in Louisville/Jefferson County Redevelopment Authority's Facility Privatization and Reuse Plan; or (2) disposing the property for purposes of mixed land use that does not include privatization.

The significant primary and secondary adverse and beneficial environmental effects that may result from the disposal and reuse of NOSL will be identified and fully discussed. Major environmental issues that will be addressed in the EIS include air quality, water quality, and impacts to wetlands, and endangered species, cultural resources, and socioeconomic.

In addition to compliance with NEPA, a cultural resources survey is being conducted to comply with Sections 106 and 110 of the National Historic Preservation Act of 1966, as amended. The survey will focus on the potential for properties, machinery, and equipment to be eligible for listing in the National Register of Historic Places.

The Navy will hold a public scoping meeting for the purpose of further identifying the scope of issues to be addressed in the EIS. It will be held on Tuesday, June 18, 1996 at 7:00 PM at the Navy and Marine Corps Reserve Center, 5401 Southside Drive, Louisville, Kentucky. Navy representatives will make a brief presentation, then members of the public will have the opportunity to provide their comments. It is important that federal, state, and local agencies and interested individuals take this opportunity to identify environmental concerns that should be addressed in the EIS. In the interest of time, speakers will be asked to limit their comments to five minutes.

ADDRESSES: Agencies and the public are encouraged to provide written comments in addition, or, in lieu of, oral comments at the scoping meeting. To be most helpful, comments should clearly describe specific issues or topics which the EIS should address. Written comments must be postmarked by July 18, 1996, and should be mailed to Commanding Officer, Southern Division, Naval Facilities Engineering Command, P.O. Box 190010, North Charleston, South Carolina 29419-9010

(Attn: Mr. Will Slogger), telephone (803) 820-5797. The scoping meeting will be conducted in English, and requests for language interpreters or other special communications needs should be made to Mr. Slogger at least one week prior to the meeting. The Navy will make every reasonable effort to accommodate these needs.

Dated: May 29, 1996.

M.A. Waters,

LCDR, JAGC, USN, *Federal Register Liaison Officer*.
